Walk Two Moons Sharon Creech 2009-10-06 In her own singularly beautiful style, Newbery Medal winner Sharon Creech intricately weaves together two tales, one funny, one bittersweet, to create a heartwarming, compelling, and utterly moving story of love, loss, and the complexity of human emotion. Thirteen-year-old Salamanca Tree Hiddle, proud of her country roots and the "Indian-ness in her blood," travels from Ohio to Idaho with her eccentric grandparents. Along the way, she tells them of the story of Phoebe Winterbottom, who received mysterious messages, who met a "potential lunatic," and whose mother disappeared. As Sal entertains her grandparents with Phoebe's outrageous story, her own story begins to unfold—the story of a thirteen-year-old girl whose only wish is to be reunited with her missing mother.

Four Portraits, One Jesus, 2nd Edition Mark L. Strauss 2020-03-24 To Christians worldwide, the man Jesus of Nazareth is the centerpiece of history, the object of faith, hope, and worship. Even those who do not follow him admit the vast influence of his life. For anyone interested in knowing more about Jesus, study of the four biblical Gospels is essential. The second edition of Four Portraits, One Jesus has been updated throughout to meet the needs to today's students. It is a thorough yet accessible introduction to the four biblical Gospels and their subject, the life and person of Jesus. Like different artists rendering the same

subject using different styles and points of view, the Gospels paint four highly distinctive portraits of the same remarkable Jesus. With clarity and insight, Mark Strauss illuminates these four books addressing the following important areas: First he addresses the nature, origin, methods for study, and historical, religious, and cultural backgrounds of the Gospels. He then moves on to closer study of each narrative and its contribution to our understanding of Jesus, investigating things such as plot, characters, and theme. Finally, he pulls it all together with a detailed examination of what the Gospels teach about Jesus' ministry, message, death, and resurrection, with excursions into the quest for the historical Jesus and the historical reliability of the Gospels. This textbook together with its workbook, video lectures, and laminated sheet gives students everything they need for a thorough and enriching study of Jesus and the Gospels.

Conservation of the Black-Tailed Prairie Dog John Hoogland 2013-04-09 Prairie dogs and the grassland habitat in which they play a key ecological role have declined precipitously over the past two centuries. The current number of prairie dogs is believed to be less than 2 percent of the number encountered by Lewis and Clark in the early 1800s, and only a fraction of grassland ecosystem remains. Conservation of the Black-Tailed Prairie Dog offers specific information to help scientists and managers develop rigorous plans for ensuring the long-term survival of the prairie dog and its habitat. With contributions from thirty leading biologists who are actively working to save prairie dogs, the book addresses a range of pivotal issues including: the ecology and social behavior of prairie dogs; the prairie dog's role as a keystone species; factors that have led to drastic population declines; practical solutions for protecting the prairie dog and its grassland ecosystem; and concerns of farmers and ranchers who view prairie dogs as a nuisance and a threat to their livelihoods Extensively illustrated with tables, figures, photos, and charts, and thoroughly referenced with more than 700 citations, the book is a unique and vital contribution for anyone concerned with prairie dogs, prairie dog conservation, or the conservation and management of grassland ecosystems.

When They Call You a Terrorist Patrisse Cullors 2018-01-16 THE INSTANT NEW YORK TIMES BESTSELLER. New York Times Editor's Pick. Library Journal Best Books of 2019. TIME Magazine's "Best Memoirs of 2018 So Far." O, Oprah's Magazine's "10 Titles to Pick Up Now." Politics & Current Events 2018 O.W.L. Book Awards Winner The Root Best of 2018 "This remarkable book reveals what inspired Patrisse's visionary and courageous activism and forces us to face the consequence of the choices our nation made when we criminalized a generation. This book is a must-read for all of us." - Michelle Alexander, New York Times bestselling author of The New Jim Crow A poetic and powerful memoir about what it means to be a Black woman in America—and the co-founding of a movement that demands justice for all in the land of the free. Raised by a single mother in an impoverished neighborhood in Los Angeles, Patrisse Khan-Cullors experienced firsthand the prejudice and persecution Black Americans endure at the hands of law enforcement. For Patrisse, the most vulnerable people in the country are Black people. Deliberately and ruthlessly targeted by a criminal justice system serving a white privilege agenda, Black people are subjected to unjustifiable racial

profiling and police brutality. In 2013, when Trayvon Martin's killer went free, Patrisse's outrage led her to co-found Black Lives Matter with Alicia Garza and Opal Tometi. Condemned as terrorists and as a threat to America, these loving women founded a hashtag that birthed the movement to demand accountability from the authorities who continually turn a blind eye to the injustices inflicted upon people of Black and Brown skin. Championing human rights in the face of violent racism, Patrisse is a survivor. She transformed her personal pain into political power, giving voice to a people suffering inequality and a movement fueled by her strength and love to tell the country—and the world—that Black Lives Matter. When They Call You a Terrorist is Patrisse Khan-Cullors and Asha Bandele's reflection on humanity. It is an empowering account of survival, strength and resilience and a call to action to change the culture that declares innocent Black life expendable.

God does His best work in the emptiness of our . . . Insatiable craving for things that don't satisfy Relational disappointments and loneliness Frustrated search for purpose and meaning Relentless desire for comfort and security Ongoing struggle to live with loss and unfulfilled dreams Join Nancy Guthrie in discovering why emptiness has never been, and never will be, a problem to God. As Nancy pulls back the curtain on God's work to fill up emptiness as revealed throughout the Bible, you'll experience page after page of grace and hope that your emptiness can and will be filled. You'll begin to see that God really does do His best work with empty--as he fills it with Himself.

Intermediate Structured Finance Modeling, with Website William Preinitz 2011-02-08 This book leads the reader through a pragmatic, hands-on approach to reaching an intermediate level of sophistication as a financial modeler. After outlining the fundamental concepts of Asset Backed Securitization the book presents a basic Structured Finance model that can be downloaded from the Web site and run in a series of cases. The stage is then set. The book takes this existing model and significantly expands both its scope and sophistication to meet a new business challenge. To accomplish this task the original model is bifurcated along its Asset/Liability lines forming two new models. These models then serve as the twin bases that will be successively developed throughout the remainder of the book. The final form of the two successor models (also available on the Web site), contain extensive interface, analytical and reporting improvements. Widespread implementation of Excel UserForms as menus, well organized cash flow analytics and extensive sets of report packages make these applications of interest to the general modeler as well as the financial specialist. Access is then introduced to streamline various input/output processes of both models. As a finishing touch the models are expanded to produce ready-to-use PowerPoint presentations and incorporate Outlook to automatically deliver the report packages. Extending the analyst's organizational, coding, modeling, and financial skills the book advances in a step-by-step manner to new and more powerful applications. Building on the reader's established knowledge of Excel and VBA you will progressively develop a pair of broader and more sophisticated models. The book contains 6 fully developed models with their supporting data, input, and reporting files as the instructional platform. The book contains over 725 exhibits of reports, examples, and code samples, designed to provide the analyst with a clear, concise, but detailed development plan. The Web site contains 5 additional chapters covering bond math, mortgage math, understanding Excel waterfalls, fundamental securitization principles and how to run the base model. Provides a code intensive approach to improving basic VBA and Excel skills and learning how to integrate them with a real life application. Outlines and implements a series of analytical subroutines to calculate uniform, geographic, and demographic analysis of mortgage cash flows. Also included are extensive stratification reporting and collateral concentration sizing algorithms. Also by William Preinitz: A Fast Track to Structured Finance Modeling, Monitoring and Valuation: Jump Start VBA Developing Intermediate Financial Models – Leveraging Excel, VBA, Access, PowerPoint and Outlook; a Structured Finance Approach is a straightforward, no-nonsense approach to developing advanced skills as a financial modeler.
