For Her Own Good Barbara Ehrenreich 2013-10-02 This women's history classic brilliantly exposed the constraints imposed on women in the name of science and exposes the myths used to control them. Since the the nineteenth century, professionals have been invoking scientific expertise to prescribe what women should do for their own good. Among the experts' diagnoses and remedies: menstruation was an illness requiring seclusion; pregnancy, a disabling condition; and higher education, a threat to long-term health of the uterus. From clitoridectomies to tame women's behavior in the nineteenth century to the censure of a generation of mothers as castrators in the 1950s, doctors have not hesitated to intervene in women's sexual, emotional, and maternal lives. Even domesticity, the most popular prescription for a safe environment for woman, spawned legions of "scientific" experts. Barbara Ehrenreich and Dierdre English has never lost faith in science itself, but insists that we hold those who interpret it to higher standards. Women are entering the medical and scientific professions in greater numbers but as recent research shows, experts continue to use pseudoscience to tell women how to live. For Her Own Good provides today's readers with an indispensable dose of informed skepticism.

Breaking the Argument Cycle Sharon Rivkin 2009-10-01 Revealing where the real conflict lies in a relationship—and resolving it * Breaking the Argument Cycle is a book for all those who've ever found themselves arguing with their significant other, again and again, about money, sex, or even a seemingly trivial topic—when, at its core, the conflict is about something completely different. A longtime marriage and family therapist, Sharon Rivkin has helped hundreds of couples fix their relationships by understanding why they fight. Here, she shows how anyone can use the tools of therapy to break the cycle of destructive fighting—namely, by resolving the core issues of early arguments, which have their roots in childhood and get repeated over time. Presenting real-life stories and easy exercises, Rivkin sets forth a simple, three-step process—Peel, Reveal, Heal—to empower couples to identify and then resolve their core issues themselves, shedding light on what they're really arguing about. This is then followed up with healing exercises. By thus breaking the argument cycle, confusion and chaos turn into clarity and healing—and everyone can learn how and why they get hooked into an argument, how to unhook, and how to develop lasting tools to turn conflict into intimacy . . . even after years of fighting.

Half-Lived Life John Lee 2011-12-20 “So this is my life? What happened to the person I thought I might be at this stage of the game? Where did that person go? Why am I feeling like I’m just treading water, trying to stay one step ahead of my bills and obligations. Anyway, I’m just too tired at this point to try to figure out where that other person went. But I sure expected to be living a different life than this one.” Most people in their forties, fifties, and beyond catch themselves saying something similar to this. Everyone has a mental image of the person they want to be, but few of us actually fulfill these wishes. Once people realize they are living a completely different life than they’d envisioned, they often think it is too late to change and carry on with the same old habits. Too many people settle for a half-lived life. Best-selling author John Lee has long been addressing the fallacy of this attitude in talks and workshops—and now he sets this program into book form. In The Half-Lived Life, he introduces and explains how passivity holds us hostage to old ways of doing things—and provides solutions on escaping this paralyzing state of mind, body, and spirit while increasing our emotional intelligence (EQ). He also shows the freedom to be gained via compassionate assertiveness—an outgrowth of setting boundaries and enforcing limits. Just as Lee’s seminars have successfully led many to find their authentic self in the second half of their life, so too will this book.

Rusty Nailed Alice Clayton 2014-06-24 In this sequel to Wallbanger, fan favorites Caroline Reynolds and Simon Parker negotiate the roller coaster of their new relationship while house-sitting in Sausalito. Playing house was

never so much fun—or so confusing. With her boss on an extended honeymoon, Caroline's working crazy-long hours to keep the interior design company running—especially since she's also the lead designer for the renovation of a gorgeous old hotel. And with Simon, her hotshot photographer boyfriend, gallivanting all over the world for his job, the couple is heavy-duty into "absence makes the heart grow fonder" mode. No complaints about the great reunion sex, though! Then a trip back east to his childhood home has Simon questioning his nomadic lifestyle. He decides to be home more. A lot more. And he wants Caroline home more, too. Though their friends' romantic lives provide plenty of welcome distraction, eventually Caroline and Simon have to sort out their relationship. Sure, more togetherness is a good thing—but does less traveling and working have to mean the other extreme? Apple pie and picket fences? With this second book in the Cocktail series, USA TODAY bestselling author Alice Clayton delivers another delicious, frothy confection of a book, shaking up her characters, stirring in laugh-out-loud humor, and serving sizzling romance straight up!

Blindsight Peter Watts 2006-10-03 *Blindsight* is the Hugo Award–nominated novel by Peter Watts, "a hard science fiction writer through and through and one of the very best alive" (The Globe and Mail). Two months have past since a myriad of alien objects clenched about the Earth, screaming as they burned. The heavens have been silent since—until a derelict space probe hears whispers from a distant comet. Something talks out there: but not to us. Who should we send to meet the alien, when the alien doesn't want to meet? Send a linguist with multiple-personality disorder and a biologist so spliced with machinery that he can't feel his own flesh. Send a pacifist warrior and a vampire recalled from the grave by the voodoo of paleogenetics. Send a man with half his mind gone since childhood. Send them to the edge of the solar system, praying you can trust such freaks and monsters with the fate of a world. You fear they may be more alien than the thing they've been sent to find—but you'd give anything for that to be true, if you knew what was waiting for them. . . . The Forty Rules of Love Elif Shafak 2010-02-18 In this lyrical, exuberant tale, acclaimed Turkish author Elif Shafak, author of *The Island of Missing Trees* (a Reese's Book Club Pick), incarnates Rumi's timeless message of love. *The Forty Rules of Love* unfolds two tantalizing parallel narratives—one contemporary and the other set in the thirteenth century, when Rumi encountered his spiritual mentor, the whirling dervish known as Shams of Tabriz—that together explore the enduring power of Rumi's work. Ella Rubenstein is forty years old and unhappily married when she takes a job as a reader for a literary agent. Her first assignment is to read and report on *Sweet Blasphemy*, a novel written by a man named Aziz Zahara. Ella is mesmerized by his tale of Shams's search for Rumi and the dervish's role in transforming the successful but unhappy cleric into a committed mystic, passionate poet, and advocate of love. She is also taken with Shams's lessons, or rules, that offer insight into an ancient philosophy based on the unity of all people and religions, and the presence of love in each and every one of us. As she reads on, she realizes that Rumi's story mirrors her own and that Zahara—like Shams—has come to set her free.

Rebellious Mourning Cindy Milstein 2017-09-12 "This intimate, moving, and timely collection of essays points the

way to a world in which the burden of grief is shared, and pain is reconfigured into a powerful force for social change and collective healing." —Astra Taylor, author *The People's Platform* "A primary message here is that from tears comes the resolve for the struggle ahead." —Ron Jacobs, author of *Daydream Sunset* "Rebellious Mourning uncovers the destruction of life that capitalist development leaves in its trail. But it is also witness to the power of grief as a catalyst to collective resistance." —Silvia Federici, author of *Caliban and the Witch* We can bear almost anything when it is worked through collectively. Grief is generally thought of as something personal and insular, but when we publicly share loss and pain, we lessen the power of the forces that debilitate us, while at the same time building the humane social practices that alleviate suffering and improve quality of life for everyone. Addressing tragedies from Fukushima to Palestine, incarceration to eviction, AIDS crises to border crossings, and racism to rape, the intimate yet tenacious writing in this volume shows that mourning can pry open spaces of contestation and reconstruction, empathy and solidarity. With contributions from Claudia Rankine, Sarah Schulman, David Wojnarowicz, Leanne Betasamosake Simpson, David Gilbert, and nineteen others. Cindy Milstein is the author of *Anarchism and Its Aspirations*, co-author of *Paths toward Utopia: Graphic Explorations of Everyday Anarchism*, and editor of the anthology *Taking Sides: Revolutionary Solidarity and the Poverty of Liberalism*.

Chronic Youth Julie Passanante Elman 2014-10-20 The teenager has often appeared in culture as an anxious figure, the repository for American dreams and worst nightmares, at once on the brink of success and imminent failure. Spotlighting the "troubled teen" as a site of pop cultural, medical, and governmental intervention, *Chronic Youth* traces the teenager as a figure through which broad threats to the normative order have been negotiated and contained. Examining television, popular novels, science journalism, new media, and public policy, Julie Passanante Elman shows how the teenager became a cultural touchstone for shifting notions of able-bodiedness, heteronormativity, and neoliberalism in the late twentieth century. By the late 1970s, media industries as well as policymakers began developing new problem-driven 'edutainment' prominently featuring narratives of disability—from the immunocompromised *The Boy in the Plastic Bubble* to ABC's *After School Specials* and teen sick-lit. Although this conjoining of disability and adolescence began as a storytelling convention, disability became much more than a metaphor as the process of medicalizing adolescence intensified by the 1990s, with parenting books containing neuro-scientific warnings about the incomplete and volatile "teen brain." Undertaking a cultural history of youth that combines disability, queer, feminist, and comparative media studies, Elman offers a provocative new account of how American cultural producers, policymakers, and medical professionals have mobilized discourses of disability to cast adolescence as a treatable "condition." By tracing the teen's uneven passage from postwar rebel to 21st century patient, *Chronic Youth* shows how teenagers became a lynchpin for a culture of perpetual rehabilitation and neoliberal governmentality. When Your Adult Child Breaks Your Heart Joel Young 2013-12-03 Behind nearly every adult who is accused of a crime, becomes addicted to drugs or alcohol, or who is severely mentally ill and acting out in public, there is usually at least one extremely stressed-out parent. This parent may initially react with the bad news of their adult child behaving badly with, "Oh no!" followed by, "How can I help to fix this?" A very common third reaction is the thought, "Where did I go wrong--was it something I said or did, or that I failed to do when my child was growing up that caused these issues? Is this really somehow all my fault?" These parents then open their homes, their pocketbooks, their hearts, and their futures to "saving" their adult child--who may go on to leave them financially and emotionally broken. Sometimes these families also raise the children their adult children leave behind: 1.6 million grandparents in the U.S. are in this situation. This helpful book presents families with quotations and scenarios from real suffering parents (who are not identified), practical advice, and tested strategies for coping. It also discusses the fact that parents of adult children may themselves need therapy and medications, especially antidepressants. The book is written in a clear, reassuring manner by Dr. Joel L. Young, medical director of the Rochester Center for Behavioral Medicine in Rochester Hills, Michigan; with noted medical writer Christine Adamec, author of many books in the field. In the wake of the Newtown shooting and the viral popularity of the post "I Am Adam Lanza's Mother," America is now taking a fresh look, not only at gun control, but also on how we treat mental illness. Another major issue is our support or stigmatization of those with adult children who are

a major risk to their families as well to society itself. This book is part of that conversation.

Decisions, Decisions Randy Green 2010-09-01 At an impasse over relationships, jobs, or health matters? Choosing just got a whole lot easier. *Decisions, Decisions* is for anyone who's been stuck in an unfulfilling relationship they can't decide whether to leave; anyone plodding along in the same job for years without advancing their goals; anyone who feels like a prisoner of poor habits that perpetuate an unhealthy lifestyle—and anyone who just accepts whatever comes their way instead of proactively making smart decisions. This book helps these people learn how to shift the way they decide. With case studies and checklists throughout, *Decisions, Decisions* is organized into three parts that lead readers to understand their behavior and learn how to change it. Psychologist Randy W. Green, PhD, begins by illustrating how people become paralyzed by their own “rules,” leading to indecision and poor decisions that can have serious health consequences. He then explores how past traumas and stress reactions inhibit present choices, and the effects our own unique body language has on decision making. And he shows how to make better decisions by shifting our attention away from where we want it least and toward what is possible, leading to good decisions that are truly in our best interests.

Leaders Eat Last Simon Sinek 2017-05-23 Finally in paperback: the New York Times bestseller by the acclaimed, bestselling author of *Start With Why* and *Together is Better*. Now with an expanded chapter and appendix on leading millennials, based on Simon Sinek's viral video "Millennials in the workplace" (150+ million views). Imagine a world where almost everyone wakes up inspired to go to work, feels trusted and valued during the day, then returns home feeling fulfilled. This is not a crazy, idealized notion. Today, in many successful organizations, great leaders create environments in which people naturally work together to do remarkable things. In his work with organizations around the world, Simon Sinek noticed that some teams trust each other so deeply that they would literally put their lives on the line for each other. Other teams, no matter what incentives are offered, are doomed to infighting, fragmentation and failure. Why? The answer became clear during a conversation with a Marine Corps general. "Officers eat last," he said. Sinek watched as the most junior Marines ate first while the most senior Marines took their place at the back of the line. What's symbolic in the chow hall is deadly serious on the battlefield: Great leaders sacrifice their own comfort—even their own survival—for the good of those in their care. Too many workplaces are driven by cynicism, paranoia, and self-interest. But the best ones foster trust and cooperation because their leaders build what Sinek calls a "Circle of Safety" that separates the security inside the team from the challenges outside. Sinek illustrates his ideas with fascinating true stories that range from the military to big business, from government to investment banking.

Philosophy in Turbulent Times Elisabeth Roudinesco 2008-11-19 For Elisabeth Roudinesco, a historian of psychoanalysis and one of France's leading intellectuals, Canguilhem, Sartre, Foucault, Althusser, Deleuze, and Derrida represent a "great generation" of French philosophers who accomplished remarkable work and lived incredible lives. These troubled and innovative thinkers endured World War II and the cultural and political revolution of the 1960s, and their cultural horizon was dominated by Marxism and psychoanalysis, though they were by no means strict adherents to the doctrines of Marx and Freud. Roudinesco knew many of these intellectuals personally, and she weaves an account of their thought through lived experience and reminiscences. Canguilhem, for example, was a distinguished philosopher of science who had a great influence

on Foucault's exploration of sanity and madness—themes Althusser lived in a notorious personal drama. And in dramatizing the life of Freud for the screen, Sartre fundamentally altered his own philosophical approach to psychoanalysis. Roudinesco launches a passionate defense of Canguilhem, Sartre, Foucault, Althusser, Deleuze, and Derrida against the "new philosophers" of the late 1970s and 1980s, who denounced the work—and sometimes the private lives—of this great generation. Roudinesco refutes attempts to tar them, as well as the Marxist and left-wing tradition in general, with the brush of Soviet-style communism. In Freudian theory and the philosophy of radical commitment, she sees a bulwark against the kind of manipulative, pill-prescribing, and normalizing psychology that aims to turn individuals into mindless consumers. Intense, clever, and persuasive, *Philosophy in Turbulent Times* captivates with the dynamism of French thought in the twentieth century.
