Pinocchio, the Tale of a Puppet Carlo Collodi 2011-02 *Pinocchio, The Tale of a Puppet* follows the adventures of a talking wooden puppet whose nose grew longer whenever he told a lie and who wanted more than anything else to become a real boy. As carpenter Master Antonio begins to carve a block of pinewood into a leg for his table the log shouts out, "Don't strike me too hard!" Frightened by the talking log, Master Cherry does not know what to do until his neighbor Geppetto drops by looking for a piece of wood to build a marionette. Antonio gives the block to Geppetto. And thus begins the life of Pinocchio, the puppet that turns into a boy. *Pinocchio, The Tale of a Puppet* is a novel for children by Carlo Collodi is about the mischievous adventures of Pinocchio, an animated marionette, and his poor father and woodcarver Geppetto. Polish Scientific Philosophy Francesco Coniglione 1993 One can often encounter an opinion that Polish scientific (or analytic) philosophy (or the Lvov-Warsaw School) deserves to be much better known than actually is. This book is thought as a response to such a claim. The papers collected in this volume are divided into two parts: Background and Influence and History and Systematics. However, there is no sharp borderline between themes which are touched in both parts. Generally speaking, all papers of the first part relate the Lvov-Warsaw School to some philosophical movements (Brentanism, phenomenology and Marxism) external to it whereas the papers collected in the second one focus on internal issues connected with the school (only Roberto Poli takes into account Brentano's views in his discussion of reism). Since the Polish school of mathematical logic is much better known than the Polish analytic philosophy we decided to omit here any treatment of the former. Thus, this collection centers on purely philosophical matters. We projected this volume not as an exhaustive panorama of Polish analytic philosophy but rather as a series of essays on particular persons or topic. As a result one can find here papers on Twardowski, Ajdukiewicz, Kotarbinski, Tarski and Lukasiewicz as well as on ethics on science, nominalism, and the methodology of psychology. We hope that this book will contribute to a better knowledge and evaluation of Polish achievements in analytic philosophy. We would like to express our gratitude to Professor Leszek Nowak, the editor-in-chief of *Poznan Studies in the Philosophy of the Sciences and the Humanities*, who initiated the idea of the collection and helped in its preparation.

Fear in the World Corrado Alvaro 2021-03-23 Corrado Alvaro's *Fear in the World* was published a decade before Orwell's 1984, but is not well known outside Italy, perhaps because of the timing of the publication just before the Second World War. Alvaro had visited the Soviet Union as a journalist, but was probably motivated to write this dystopian novel by aspects of modernity that concerned him, particularly the use of fear for political purposes which was not afflicting Russia alone. He was interested in the psychology of fear and the extent to which individuals and the crowd participate in their own regimentation. The names of countries, cities and leading political figures such as Stalin are never referred to, but as in the works of Orwell they are clearly identifiable from their descriptions: the author was writing in a Fascist country against a Fascist censor and had to cut his cloth accordingly. This is a dark novel, not quite as dark as 1984, but it is more claustrophobic. The feeling of inevitability is there from the first page, and it is experienced as we experience real life. The imagined truth takes us closer to where we really are. The travails of the love affair at the core of this novel quite possibly arise from perceptions that the regime exploits in a quite ad hoc manner. And it leads the reader through an extraordinary sequence of events and observations which encompass a vast range of emotions and ideas expressed in a unique prose style. The modern Leviathan appears to be a well-oiled machine, but towards the end it becomes clear that this is merely an appearance of efficiency and omniscience, but appearances can be powerful. Alvaro is particularly interested in how the state uses quasireligious mechanisms and rituals to assert its power. The central character returns to the country after a long period abroad, and sees things initially through foreign eyes, living a life similar to the one Alvaro did when in Russia. He is not a natural rebel, and very much wants to fit in, but he finds this difficult to achieve. The regime boasts that it has an ally in history, but destiny is elusive, however much the characters feel that they are driven by it.

Traces Ernst Bloch 2006 Collects aphorisms, essays, stories, and anecdotes, and enacts the author's interest in showing how

attention to "traces" can serve as a mode of philosophizing. In an example of how the literary can become a privileged medium for philosophy, his chief philosophical invention is to begin with what gives an observer pause.

Tattoo Manuel Vazquez Montalban 2013-07-30 Only Pepe Carvalho could use a tattoo saying "Born to Raise Hell in Hell" as evidence that the police are, once again, dead wrong. In a Spain still stifled under the rule of Franco, former CIA operative--and former Communist--Pepe Carvalho has become so cynical he seems to care about nothing except food and sex. He's even taken to burning the occasional book in his Barcelona apartment, just so he can have a fire going in the fireplace when he eats some bacalhao. But when he sees the cops bungling a case he's hired to investigate--that of a body pulled out of the sea--he's roused by a sense of injustice. The cops think the murder was connected to local drug dealers and brothels, and they begin raiding bars and harassing Barcelona's women of the night. But Carvalho's gut tells him something else is going on, and the cops are wrong once again. As the cops stir up more and more trouble, and Carvalho gets more and more entwined, he's only got one clue: a tattoo on the dead man's body, one which reads: "Born to Raise Hell in Hell."

Behind the Door Giorgio Bassani 2017-09-28 A new translation of Bassani's moving novel of childhood friendship and the unexpected loss of innocence. The years lived since then have not, in the end, been of any use: I haven't managed to remedy the suffering which has remained there like a hidden wound, secretly bleeding. In the fourth book of the Romanzo di Ferrara cycle, Bassani paints a moving portrait of a 1930s childhood in which even the familiar classroom and playground dramas begin to reflect the sinister forces at work in fascist Italy. This powerful tale of friendship and rivalry in the face of the ever encroaching spectre of adulthood adds yet another intricate thread to Bassani's rich tapestry of his native city, Ferrara. 'Giorgio Bassani is one of the great witnesses of this century, and one of its great artists' Guardian 'Powerful new translations . . . Bassani began as a poet, and McKendrick's redelivery of this taut uncompromising fiction reveals resonance and generosity' Ali Smith

Shinto and the State, 1868-1988 Helen Hardacre 2020-11-10 Helen Hardacre, a leading scholar of religious life in modern Japan, examines the Japanese state's involvement in and manipulation of shinto from the Meiji Restoration to the present. Nowhere else in modern history do we find so pronounced an example of government sponsorship of a religion as in Japan's support of shinto. How did that sponsorship come about and how was it maintained? How was it dismantled after World War II? What attempts are being made today to reconstruct it? In answering these questions, Hardacre shows why State shinto symbols, such as the Yasukuni Shrine and its prefectural branches, are still the focus for bitter struggles over who will have the right to articulate their significance. Where previous studies have emphasized the state bureaucracy responsible for the administration of shinto, Hardacre goes to the periphery of Japanese society. She demonstrates that leaders and adherents of popular religious movements, independent religious entrepreneurs, women seeking to raise the prestige of their households, and men with political ambitions all found an association with shinto useful for self-promotion; local-level civil administrations and parish organizations have consistently patronized shinto as a way to raise the prospects of provincial communities. A conduit for access to the prestige of the state, shinto has increased not only the power of the center of society over the periphery but also the power of the periphery over the center.

The Scroll of Seduction Gioconda Belli 2009-10-13 Manuel is a man of many talents; an art historian and professor, he is also an exquisite storyteller. When he meets 16-year-old Lucía on an outing from her boarding school, he offers to narrate a story of dire consequences—that of the Spanish Queen Juana of Castile and her legendary love for her husband, Philippe the Handsome. Promised to Prince Philippe the Handsome to solidify ties between the Flemish and Spanish crowns, Queen Juana immediately fell in love with her betrothed with all the abandon and passion of her fiery personality. Theirs was one of the most tumultuous love stories of all time. But Juana, who was also one of the most learned princesses of the Renaissance, was forced to pay a high price for being headstrong and daring to be herself. Those at court who could not fathom Juana as heir to the throne of the most important empire of its day conspired against her and began to question her sanity. Eventually she came to be known as Juana the Mad. But was she really insane, or just a victim of her impetuosity and unbridled passion? As the novel unfolds, Lucía and Manuel become enmeshed in a complex psychological web that seduces and incites them to relive Juana and Philippe's story, and eventually leads them to a mysterious manuscript that may hold the key to Juana's alleged madness.

Obsolete Objects in the Literary Imagination Francesco Orlando 2008-10-01 Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach's *Mimesis*. Italian critic Francesco Orlando explores Western literature's obsession with outmoded and nonfunctional objects (ruins, obsolete machinery, broken things, trash, etc.). Combining the insights of psychoanalysis and literary-political history, Orlando traces this obsession to a turning point in history, at the end of eighteenth-century industrialization, when the functional becomes the dominant value of Western culture. Roaming through every genre and much of the history of Western literature, the author identifies distinct categories into which obsolete images can be classified and provides myriad examples. The function of literature, he concludes, is to remind us of what we have lost and what we are losing as we rush toward the future.

Breaking Dawn Stephenie Meyer 2008-08-02 In the explosive finale to the epic romantic saga, Bella has one final choice to make. Should she stay mortal and strengthen her connection to the werewolves, or leave it all behind to become a vampire? When you loved the one who was killing you, it left you no options. How could you run, how could you fight, when doing so would hurt that beloved one? If your life was all you had to give, how could you not give it? If it was someone you truly loved? To be irrevocably in love with a vampire is both fantasy and nightmare woven into a dangerously heightened reality for Bella Swan. Pulled in one direction by her intense passion for Edward Cullen, and in another by her profound connection to werewolf Jacob Black, a tumultuous year of temptation, loss, and strife have led her to the ultimate turning point. Her imminent choice to either join the dark but seductive world of immortals or to pursue a fully human life has become the thread from which the fates of two tribes hang. This astonishing, breathlessly anticipated conclusion to the Twilight Saga illuminates the secrets and mysteries of this spellbinding romantic epic. It's here! #1 bestselling author Stephenie Meyer makes a triumphant return to the world of Twilight with the highly anticipated companion, *Midnight Sun*: the iconic love story of Bella and Edward told from the vampire's point of view. "People do not want to just read Meyer's books; they want to climb inside them and live there." -- Time "A literary phenomenon." -- The New York Times

Pretend I'm Dead Jen Beagin 2015-10-30 Jen Beagin's funny, moving, fearless debut novel introduces an unforgettable character, Mona—almost 24, cleaning houses to get by, emotionally adrift. Handing out clean needles to drug addicts, she falls for a recipient who proceeds to break her heart in unimaginable ways. She decamps to Taos, New Mexico, for a fresh start, where she finds a community of seekers and cast-offs. But they all have one or two things to teach her—the pajama-wearing, blissed-out New Agers, the slightly creepy client with peculiar tastes in controlled substances, the psychic who might really be psychic. Always just under the surface are her memories of growing up in a chaotic, destructive family from which she's trying to disentangle herself. The story of her journey toward a comfortable place in the world and a measure of self-acceptance is psychologically acute, often surprising, and entirely human.

The Archaeology of Colonialism Claire L. Lyons 2002 The Archaeology of Colonialism demonstrates how artifacts are not only the residue of social interaction but also instrumental in shaping identities and communities. Claire Lyons and John Papadopoulos summarize the complex issues addressed by this collection of essays. Four case studies illustrate the use of archaeological artifacts to reconstruct social structures. They include ceramic objects from Mesopotamian colonists in fourth-millennium Anatolia; the Greek influence on early Iberian sculpture and language; the influence of architecture on the West African coast; and settlements across Punic Sardinia that indicate the blending of cultures. The remaining essays look at the roles myth, ritual, and religion played in forming colonial identities. In particular, they discuss the cultural middle ground established among Greeks and Etruscans; clothing as an instrument of European colonialism in nineteenth-century Oceania; sixteenth-century Andean urban planning and kinship relations; and the Dutch East India Company settlement at the Cape of Good Hope.

Urban Religion Jörg Rüpke 2020-02-24 So far religion has been seen as cause for dramatic developments in the history of cities, it has contributed to the monumentalisation of centres and or has given importance to ex-centric places. Very recently, anthropologists have been discovering religion in the contemporary global city. But still awaiting historical investigation is the specific urban character of religious ideas, practices and institutions and the role of urban space shaping this very 'religion' in the course of history. The time-span from the Hellenistic age to Late Antiquity was crucial in the establishment of concepts and institutions of 'religion' and witnessed extended waves of urbanisation, Rome being central to this. In addressing this problem, this book fills a significant gap in the scholarship on urban religion across time. Taking seriously the proposition that space is condition, medium and outcome of social relations, the development of 'urban religion' in lived urban space and urban culture or urbanity offers a lens onto processes of religious change that have been neglected for the history of religion and for the study of urbanism. The key thesis is that city-space engineered the major changes that revolutionised religions. » This stimulating book makes use of archaeology and history to address religion as an essential component of urban life in both the past and the present. -With a strong basis in the ancient Mediterranean as well as an insightful view of modern urban life, Rüpke emphasizes that the practice and performance of religion at the everyday level is as essential in the creation of an urban ethos as the grand temples and institutions promulgated by the elite. « Monica L. Smith, author of *Cities: The First 6,000 Years* » Jörg Rüpke offers a characteristically original and learned series of reflections on some of the many ways in which the history of religions and the history of cities might be entangled. Urban Religion offers no single overarching thesis, but it is consistently thought-provoking and suggests many intriguing lines of investigation for the future. « Greg Woolf, Institute of Classical Studies, London

Magika Hiera Christopher A. Faraone 1997 This collection challenges the tendency among scholars of ancient Greece to see magical and religious ritual as mutually exclusive and to ignore "magical" practices in Greek religion. The contributors survey specific bodies of archaeological, epigraphical, and papyrological evidence for magical practices in the Greek world, and, in each case, determine whether the traditional dichotomy between magic and religion helps in any way to conceptualize the objective features of the evidence examined. Contributors include Christopher A. Faraone, J.H.M. Strubbe, H.S. Versnel, Roy Kotansky, John Scarborough, Samuel Eitrem, Fritz Graf, John J. Winkler, Hans Dieter Betz, and C.R. Phillips.

The World Saved by Kids Elsa Morante 2016 First published in 1968, *The World Saved By Kids* was written in the aftermath of deep personal change and in the context of what Elsa Morante called the great youth movement exploding against the funereal machinations of the organized contemporary world . Greeted by Pier Paolo Pasolini as a political manifesto written with the grace of a fairy tale and by Antonio Porta as one of the most important books of the decade, *The World Saved By Kids* has Morante display true mastery of tone, rhythm and imagery as she works elegy, parody, storytelling, song and several more forms into an act of language magic through which Gramsci and Rimbaud, Christ and Antigone, Mozart and Simone Weil and a host of other figures join the sassy, vulnerable neighbourhood kids in a renewal of the word s timeless, revolutionary power to explore and celebrate life s insoluble paradox. Morante gained international recognition and critical acclaim for her novels *Menzogna e sortilegio* (to date untranslated except for a heavily abridged version), *History*, *Arturo s Island* and *Aracoeli* but always considered *The World Saved By Kids* her best book and the one that most closely spoke her spirit.
