**Maonomics** Loretta Napoleoni 2011-10-04 The end of the cold war was thought to signal the triumph of Western capitalism over Communism. In *Maonomics: Why Chinese Communists Make Better Capitalists than We Do*, Napoleoni argues just the opposite: what we are witnessing instead is the beginning of the collapse of capitalism and the victory of "communism with a profit motive." *Maonomics* charts the prodigious ascent of the Chinese economic miracle and the parallel course of the West's ongoing insistence on misconstruing China and its economy even as we acknowledge its growing influence and importance. *Maonomics* is a warning call whereby Western governments can avoid economic collapse by learning how to understand more clearly what the lessons of the Chinese economy really are. Based on first-hand reporting from China during frequent visits in the last several years, *Maonomics* lends credence to the Chinese view and translates it for Western readers. For example, the Chinese too are attached to their vision of democracy, but it is different from ours. It isn't focused as much on voting as it is economic opportunity and the fair distribution of wealth and prosperity. Napoleoni also separates failed Leninist political ideology from true Marxist theory, showing that Marx's writings do not reject profit so long as it is used to benefit the people. Marx's dictatorship of the proletariat is being realized in China, she argues, where giant steps forward are being made in the name of progress and the wellbeing and prosperity of the Chinese people. Looking at the Chinese economy up close, any economist would be hard pressed to say that they are not on the right track. Here Loretta Napoleoni offers a front row seat on the greatest show on earth: the peaceful economic revolution that is shifting the balance of power in the world from West to East.

European Cultural Diplomacy and Arab Christians in Palestine, 1918-1948 Karene Sanchez-Summerer 2020 This open access book investigates the transnationally connected history of Arab Christian communities in Palestine during the British Mandate (1918-1948) through the lens of the birth of cultural diplomacy. Relying predominantly on unpublished sources, it examines the relationship between European cultural agendas and local identity formation processes and discusses the social and religious transformations of Arab Christian communities in Palestine via cultural lenses from an entangled perspective. The 17 chapters reflect diverse research interests, from case studies of individual archives to chapters that question the concept of cultural diplomacy more generally. They illustrate the diversity of scholarship that enables a broad-based view of how cultural diplomacy functioned during the interwar period, but also the ways in which its meanings have changed. The book considers British Mandate Palestine as an internationalised node within a transnational framework to understand how the complexity of cultural interactions and agencies engaged to produce new modes of modernity. Karène Sanchez Summerer is Associate Professor at Leiden University, The Netherlands. Her research considers the European linguistic and cultural policies and the Arab communities (1860-1948) in Palestine. She is the PI of the research project (2017-2022), 'CrossRoads: European Cultural Diplomacy and Arab Christians in Palestine (1918-1948)' (project funded by The Netherlands National Research Agency, NWO). She is the co-editor of the series 'Languages and Culture in History' with W. Frijhoff, Amsterdam University Press. She is part of the College of Experts: ESF European Science Foundation (2018-2021). Sary Zananiri is an artist and cultural historian. He is currently a Postdoctoral Fellow on the NWO funded project 'CrossRoads: European Cultural Diplomacy and Arab Christians in Palestine (1918-1948)' at Leiden University, The Netherlands.

Disciple IV Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

M.i.a. Angels M. P. Romano 2017-07-07 Each "Missing In Action (M.I.A.) Angel" assignment is to be with someone who is willing to give their life in combat to protect or save others. Some just need that additional bit of help to survive, while others need the presence of an "M.I.A. Angel" as they approach death. It's not easy being an "M.I.A. Angel" although it is many times rewarding. The downside is that sometimes there is nothing that can be done to help, other than the assignment knowing that an angel is with them when they die.

Looptail Bruce Tip 2014-04-03 Looptail is Bruce Poon Tip's extraordinary first-person account of his entrepreneurial instincts to start and develop G Adventures, the highly successful international travel adventure company - and along the way he reveals his unusual management secrets that not only keep his employees fully engaged and energized but also keep his customers extremely happy. His unique approach has worked in marvellous ways. Poon Tip has created an entirely new and refreshing approach to management. For example, there is no CEO at G Adventures - instead, every employee is a CEO, empowered to make instantaneous decisions to help clients on the spot. But while there's no CEO, there is a company Mayor, who take the pulse of corporate morale. There's no HR department - but there is a Talent Agency and company Culture Club. It hasn't always been easy to try to balance his desire for a socially responsible company along with the desire to generate profits. But thanks to Poon Tip's vision, G Adventures has flourished and has done its best to maintain its looptail approach. In short, it's been an extraordinary ride, and in many ways G Adventures is at the vanguard of what modern-day companies are beginning to look like. The Vintage Mencken Alistair Cooke 2008-11 This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1902 Excerpt: ...earth.  $r'$  = radius of moon, or other body.  $P$  = moon's horizontal parallax = earth's angular semidiameter as seen from the moon.  $f$  = moon's angular semidiameter.  $\text{Now } P = P'$  (in circular measure),  $r'-r = r$  (in circular measure);  $\therefore r : r' :: P : P'$ , or (radius of earth) : (radius of moon) :: (moon's parallax) : (moon's semidiameter). Examples. 1. Taking the moon's horizontal parallax as  $57'$ , and its angular diameter as  $32'$ , find its radius in miles, assuming the earth's radius to be 4000 miles. Here moon's semidiameter =  $16'$ ;  $\therefore 4000 :: 57' : 16'$ ;  $\therefore r = 400 \cdot 16 = 1123$  miles. 2. The sun's horizontal parallax being  $8''8$ , and his angular diameter  $32V$  find his diameter in miles. ' Am. 872,727 miles. 3. The synodic period of Venus being 584 days, find the angle gained in each minute of time on the earth round the sun as centre. Am.  $1''-54$  per minute. 4. Find the angular velocity with which Venus crosses the sun's disc, assuming the distances of Venus and the earth from the sun are as 7 to 10, as given by Bode's Law. Since (fig. 50)  $S V : VA :: 7 : 3$ . But  $Sr$  has a relative angular velocity round the sun of  $1''-54$  per minute (see Example 3); therefore, the relative angular velocity of  $A V$  round  $A$  is greater than this in the ratio of 7: 3, which gives an approximate result of  $3''-6$  per minute, the true rate being about  $4''$  per minute. Annual ParaUax. 95. We have already seen that no displacement of the observer due to a change of position on the earth's surface could apparently affect the direction of a fixed star. However, as the earth in its annual motion describes an orbit of about 92 million miles radius round the sun, the different positions in space from which an observer views the fixed stars from time to time throughout the year must be separated ...
